

ACULEO buzzhero™

BEE & WASP REPELLENT

ENJOY YOUR POOL, WITHOUT THE BEES.

Aculeo BuzzHero™ is a natural, science-based, eco-conscious way to safely repel bees and wasps away from pools and water features. The mix is designed to disrupt foraging behavior in bees and wasps, retraining them to seek water elsewhere. All without harming people or pets.

THE NATURAL, NON-TOXIC, ECO-CONSCIOUS WAY TO KEEP YOUR POOL SAFE FROM BEES & WASPS

Powered by natural oils like lemongrass, rosemary, and peppermint, Aculeo BuzzHero™ keeps your pool area calm and comfortable without harsh chemicals or unpleasant odors. It's safe, effective, and backed by science. Apply 30 minutes before swimming and reapply every hour while in the water for best results. *(DO NOT USE ON ANY WATER FEATURE THAT CONTAINS AQUATIC LIFE)*

KEY BENEFITS

- **DECREASES** sting risk around pools and water features
- **SUPPORTS** pollinator conservation through behavioral science
- **TRAINS** bees and wasps to find alternative water sources
- **USES** plant-based, non-toxic ingredients
- **PROMOTES** stress-free outdoor enjoyment
- **PROTECTS** hives from traditional pest control methods such as extermination
- **SAFE** for humans, pets, and pool use
- **PROVIDES** peace of mind for families, resorts, and guests

Aculeo's mission is to protect the human and the hive. So, we make innovative, environmentally responsible products that help reduce dangerous bee-human interactions, without harming the hive or overusing pesticides.
